Education

Anthem international school , Karnal

2021 - 2022

- CBSE (Class XII), CGPA: 8.0

Anthem international School, Karnal

2019 - 2020

- CBSE (Class X), CGPA: 8.0

Skills

Python | JavaScript | NodeJS | React | MongoDB | Git | express | Rest Api | MERN

Work Experience

Fresher

About Me

I love solving problems—not just coding ones, but also real-world challenges. I have a deep curiosity about learning how things work under the hood. This curiosity is the reason I chose coding, as it allows me to explore what makes those bits and transistors so fascinating and helpful.

I am always excited about new technology and advancements happening nowadays, especially the evolution of AI. I am a self-driven and focused learner, ready to work in any condition. Solving problems feels like a fun game to me, and I truly enjoy it—it has even become one of my hobbies.

That's it for now. We'll talk more when we meet! :)
